InFocus INL2159

INFOCUS INL2159

Brief Introduction Beta 2.5	The standard portable INL2159 3D laser DLP has 4000 Ansi lumens, a contrast of 300000:1 and a WUXGA 1920 x 1200 resolution. The manufacturer specifies a laser service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. The horizontal and vertical keystone correction provides leeway when setting up. The projector can illuminate images up to 643 cm wide thanks to its 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. Furthermore, the projector can play 1080P and 4K (compressed) as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector. At 30 decibels, the projector is very quiet compared to other projectors.
