Life's best moments, made possible anywhere

Create stunning HD video and photo content, then project and share it instantly – anywhere. The projector feature makes a BIG impact, bringing photos, videos and movies to life. And you can project immediately -- no downloading or waiting to hook it up to another device. You create it; you show it off. Best of all? It's small enough to throw in your bag and go.

It's so easy to use

Record video, snap photos and project images at the push of a button using the incredibly user-friendly interface. The up to 65" projected screen means everyone can see — no more passing around a small screen. Add to that 20 lumens of brightness and 800 x 600 SVGA resolution for stunning image clarity. Who knew sharing could be so much fun?

The Shoot 'n Share also enlarges your small screens

Just connect some smartphones, iPod®, iPad®, portable DVD player, game console or laptop, and you have big screen mobile entertainment. (some accessories sold separately) Great for business. Great for pleasure.
