

3M DMS 810

3M DMS 810

Brief Introduction

Beta 2.5

A brief introduction to the 3M DMS 810. The whiteboard DLP projector has an XGA 1024 x 768 resolution and a contrast of 1300:1. The integrated media player allows files to be played directly. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. A picture width of up to 337 cm is possible as the projector has 1500 Ansi lumens. However, if room light is available, the image should be a maximum of 225 cm wide. The projector is equipped with an integrated whiteboard function for interactive training and presentations. This model is no longer offered by 3M.
