

Epson USA PowerLite 1915

EPSON USA POWERLITE 1915

The PowerLite 1915 LCD has 4000 Ansi-Lumen, a contrast of 2000:1 and an XGA 1024 x 768 resolution. The projector also offers an integrated media player for direct playback of files. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. 551 cm picture width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 367 cm here. Furthermore, the projector can play 1080P without any problems. The model built in 2009 is no longer offered by Epson USA.
