Epson USA PowerLite 1950

EPSON USA POWERLITE 1950

Brief Introduction Beta 2.5	The standard portable PowerLite 1950 LCD has 4500 Ansi lumens, a contrast of 3000:1 and an XGA 1024 x 768 resolution. Includes an integrated media player that can be used to play files directly. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. An image width of up to 584 cm is possible, if the image width is smaller (we recommend max. 389 cm), rooms with residual light are also no problem. Furthermore, the projector can play 1080P without any problems. The model built in 2012 is no longer offered by Epson USA.
