FUTURE PROOF PC COMPATIBILITY

Let's make things better.

PHILIPS

Home Entertainment Projector

Fellini 100

Philips introduces the ultimate visual experience for your home theatre. The Philips LCD Projector brings back the intensity and richness of viewing larger-than-life video images that will amaze, dazzle, delight and entertain your family and friends. And unlike conventional TV, images can scale from small to a large 16 1/2' diagonal.

The Philips Fellini projects brightly lit images onto your wall or screen. Share the thrill of the latest blockbuster film, the richness of a family video conference with distant relatives, or the fun of video games, with a large image; or hook up your VCR with a tuner for a big-screen TV experience. A simple adjustment will create a smaller picture size to accommodate more intimate subjects, such as television news.

Special features

- Superior video image: Line-doubling; LIMESCO™ full bitmapping prevents loss of information regardless of source type
- Ultra High Performance Lamp, uniform brightness from edge- to-edge, virtually no loss of brightness over time, rich natural colors, 120W Lamp, up to 4000 hours
- Straightforward user interfaces with key buttons and clear onscreen menus
- Diagonal images up to 42 1/2', handles various aspect ratios - 4:3, 16:9, 21:9
- 360° Infrared receiver for room-wide control, integrated trackball for menu control, backlit buttons
- Aubergine and brushed-metal chassis
- Will connect to all kinds of sources, including: VCR, DVD, TV, Laser Discs, game consoles, digital and video cameras, audio and home entertainment systems
- Quiet cooling fan
- Lightweight (17.5 lbs.), carrying handle, compact size
- UHP Lamp reduces replacement costs by up to 60% over conventional Metal Halide Lamps
- LIMESCO™ provides compatibility with most signals, including: PAL, SECAM, NTSC.

Accessories for Fellini:

- Soft Bag
- Ceiling Mount
- Projection Screens
- Extra Remote Control
- UHP 120W Compact Projection lamp
