

Sony VPL FHZ57 /B/W/L

SONY VPL FHZ57 /B/W/L

A brief introduction to the VPL FHZ57 /B/W/L: The Sony laser LCD projector offers 4100 Ansi-Lumen, a contrast of 10000:1 and a WUXGA 1920 x 1200 resolution. It is a laser projector with 20000 hours of light life, which translates to over 13.7 years at 4 hours per day. The integrated lens shift gives freedom when positioning the projector. 651 cm image width, the projector will be able to illuminate well. Rooms with residual light can be created by the projector with a smaller image width, we recommend a maximum of 434 cm. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Playing 1080P is also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection. At 28 decibels, the projector is very quiet compared to other projectors. It was launched in 2015 and is no longer offered by the manufacturer Sony.

 3 x 0,76" LCD TFT Panel
WUXGA 16/9 Liquid Crystal Display
