

Sony VPL FHZ65 /L/BJ

SONY VPL FHZ65 /L/BJ

The VPL FHZ65 /L/BJ laser LCD projector from Sony has 6000 Ansi lumens, a contrast of 10000:1 and a WUXGA 1920 x 1200 resolution. Due to the laser, the projector is specified with 20000 hours of light life, which is over 13.7 years with a daily viewing time of 4 hours. Includes a lens shift and keystone correction function, which provides freedom during installation. The projector can illuminate images up to 787 cm wide thanks to its 6000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 525 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. Even 1080P video signals are no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection. At just 28 decibels, the device is one of the quieter projectors. This model is no longer offered by Sony.
