The aao Oxner standard portable LED DLP projector has 400 Ansi-Lumen, a contrast of 10000:1 and a HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 50,000 hours, which is over 34.2 years with a daily viewing time of 4 hours. Includes an integrated media player that can be used to play files directly. The projector can illuminate images up to 203 cm wide thanks to its 400 Ansi lumens. In room lighting, however, the picture width should ideally be less than 135 cm. The model recognizes screen mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. The model is also Full HD 1080P compatible.
