

AAXA HP5 Halloween

The AAXA HP5 Halloween LED LCD projector has 450 ANSI lumens, a contrast ratio of 2000:1, and HDTV 1920 x 1080 resolution. It is an LED projector with a light life of 20,000 hours, which equates to over 13.7 years at 4 hours per day. The projector is equipped with an integrated media player, so playing files directly will not be a problem. Since the projector has horizontal and vertical keystone correction, it can be set up with plenty of space in the room. The projector can illuminate up to 216 cm of image width thanks to its 450 ANSI lumens. However, in room lighting, the image width should ideally be less than 144 cm. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, the projector can play 1080P without any problems. With an operating noise of only 25 decibels, this model is very quiet compared to others.

Brief Introduction

Display Type

1 x LCD TFT Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

450

Contrast

2000:1 full on/off
