

AAXA L1

AAXA L1

Brief Introduction

Beta 2.5

The AAXA model L1 is an LCOS laser projector with SVGA 800 x 600 resolution and a contrast of 2000:1. The manufacturer AAXA specifies a service life of 30000 hours, which is over 20.5 years if enjoyed for four hours a day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The projector was launched in 2010 and is no longer sold by the manufacturer.
