

AAXA L1 V2

AAXA L1 V2

Brief Introduction

Beta 2.5

The AAXA L1 V2 Laser LCOS projector has 20 Ansi-Lumen, a contrast of 2000:1 and a SVGA 800 x 600 resolution. It is a laser projector with 30000 hours of light life, which converts to over 20.5 years at 4 hours per day. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. At just 20 decibels, the device is one of the quieter projectors. The model was built by AAXA in 2010 and is no longer current.
