

# P3X PICO PROJECTOR

The AAXA P3X is a pico projector that lets users spontaneously share photos, videos, or other digital media with friends and colleagues. With it's powerful ARM based Media Player and built-in speakers, the P3X is capable of playing 720P media files, digital pictures, and MP3 music directly without the need to connect another device. Storage capabilities include a MicroSD Card slot and USB Port, meaning your digital message can be loaded directly onto the P3X projector.

## Portable Entertainment in Your Hands!

Projects Images up to 80 Inches  
using DLP projection technology.

2 Hour Rechargeable Li-Ion  
Batteries lets you go completely  
cordless.

Use the Onboard Media Player to  
play files directly from both USB  
or Micro-SD Memory.

iPod / iPhone
