ACER P1173

The Acer P1173 standard portable 3D DLP projector has 3000 Ansi lumens, a contrast of 17000:1 and an SVGA 800 x 600 resolution. The service life of the lamp is up to 5000 hours, which is over 6.8 years with a daily viewing time of 2 hours. 3000 Ansi lumens ensure that a picture width of 477 cm is also possible. However, if room light is available, the picture should be max. 318 cm wide. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. The projector can also play 1080P and 3D without any problems. With an operating noise of just 30 decibels, the model is very quiet compared to others. The projector was launched in 2014 and is no longer sold by the manufacturer, but is still very popular in our projector database.
