

Acer P1265

ACER P1265

Brief Introduction

Beta 2.5

A brief introduction to the Acer P1265. The standard portable DLP projector has an XGA 1024 x 768 resolution and a contrast of 2000:1. The projector can illuminate images up to 427 cm wide thanks to its 2400 Ansi lumens. In room light, however, the picture width should ideally be less than 285 cm. It is also Full HD 1080P compatible. With an operating noise of just 28 decibels, the model is very quiet compared to others. The projector was launched in 2007 and is no longer sold by the manufacturer, but is still very popular in our projector database.
