

Acer P5330W

ACER P5330W

With the P5330W, manufacturer Acer offers a DLP projector with WXGA 1280 x 800 resolution and a contrast of 20000:1. The lamp in the projector is specified with a lamp life of 10000 hours, which converts to over 13.7 years at 2 hours per day. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. The horizontal and vertical keystone correction provides leeway when setting up. Thanks to the brightness of 4500 Ansi lumens, a picture width of 682 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 455 cm). The model is also Full HD 1080P and 3D compatible.
