

Acer P5515

ACER P5515

The Acer model P5515 is a DLP projector with HDTV 1920 x 1080 resolution and a contrast of 12000:1. An image width of up to 643 cm is possible, if the image width is smaller (we recommend max. 429 cm), rooms with residual light are also no problem. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from the smartphone while it is being charged at the same time via the connection. Even 1080P video signals and 3D are no problem for the projector. The projector was launched in 2015 and is no longer sold by the manufacturer, but is still very popular in our projector database.
