

Acer P6500

ACER P6500

Brief Introduction
Beta 2.5

The Acer P6500 3D BrilliantColor DLP projector has 5000 Ansi lumens, a contrast of 20000:1 and an HDTV 1920 x 1080 resolution. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. The integrated lens shift gives freedom when positioning the projector. The model offers a microphone jack plug and 10W speakers, so no additional audio equipment is required for presentations or training courses. The projector can illuminate images up to 718 cm wide thanks to its 5000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, max. 479 cm is recommended. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from the smartphone while it is being charged at the same time via the connection. It is also Full HD 1080P and 3D compatible. The model built in 2016 is no longer offered by Acer, but is still very popular in our projector database.
