

PROJECTOR P7215

High-impact projection for professionals

- Extreme brightness (6000 lm) for hard-hitting presentations
- HDMI[®], DVI, and dual D-Sub ports allow multiple connections
- Crestron[®] LAN Control enables complete control via a network
- Acer's top-loading lamp design makes maintenance easy

Specifications

Model name	Acer P7215
Projection system	DLP®
Resolution	Native XGA (1024 x 768) Maximum UXGA (1600 x 1200), 1080P (1920 x 1080)
Aspect ratio	4:3 (native), 16:9
Contrast ratio	2100:1
Brightness	6000 ANSI lumens (standard); 4800 ANSI lumens (ECO)
Lamp life	1500 hours (standard); 2000 hours (ECO)
Projection lens	F = 1.77 – 1.93, f = 28.64 - 34.35 mm 1:1.2 manual zoom and manual focus
Keystone correction	±40 degrees (vertical), manual
Noise level	34 dBA (standard), 30 dBA (ECO) — without dust filter
Input interface	Two analog RGB / component video (D-Sub); HDMI® (video, audio, HDCP); three PC audio (stereo mini jack); composite video (RCA); S-video (mini DIN); component (three RCA); DVI (HDCP)
Output interface	Analog RGB (D-Sub), PC audio (stereo mini jack)
Control interface	Mini USB (type B); RS-232 (D-Sub); 12 V DC (screen control)
Network interface	Ethernet (RJ-45) port
Dimensions	398 x 309 x 126 mm (15.7" x 12.2" x 5.0")
Weight	7.1 kg (15.6 lbs.)

Feature Highlights

Precise display

- Acer ColorBoost II+
- Acer ColorSafe II
- Native XGA (1024 x 768) resolution
- 6000 ANSI lumens brightness
- 2100:1 contrast ratio

Convenient setup & connectivity

- Networking projection (Display over LAN)
- Crestron® Network System compliance (Control over LAN)
- Dual D-Sub input
- HDMI® input
- Digital connectivity via DVI

Empowering usability

- Acer ePower management
- Smart detection
- Instant pack
- Instant resume

Eco-friendly functionality

- Acer EcoProjection
- 2000-hour lamp life in ECO mode
- Auto shutdown

Acer ColorBoost II+

Acer ColorBoost II+ is an advanced technology that refines waveform to improve color performance based on lamp spectrum and color wheel properties. ColorBoost II+ (1) improves natural color temperature to achieve optical color balance, and (2) enhances color brightness according to content by working with Acer eView Management, which provides scenario modes with a color-specific refined waveform.

Acer ColorSafe II

Acer projectors featuring ColorSafe II are virtually immune to color decay, such as the yellow or green tint on images displayed by some projectors that have been used for extended periods of time. Acer projectors take advantage of DLP® technology to guarantee picture integrity despite prolonged use. Extended lifespan and consistent image quality lower total cost of ownership and translate to big savings.

Acer EcoProjection

Acer EcoProjection is a complete environment-friendly power management solution that reduces standby power consumption by up to 90%, from 5 W to 0.5 W. Also featured in the Acer EcoProjection suite is Acer ePower Management for customized power-saving configurations.

About Acer

Since its founding in 1976, Acer has achieved its goal of breaking barriers between people and technology. Globally, Acer ranks No. 2 for notebook PCs.* A profitable and sustainable Channel Business Model is instrumental to the company's continuing growth, while its multi-brand approach integrates Acer, Gateway, Packard Bell, and eMachines brands in worldwide markets. Acer designs environmentally friendly products and has established a green supply chain through collaboration with suppliers. Acer is proud to be a Worldwide Partner of the Olympic Movement, including supporting the Vancouver 2010 Olympic Winter Games and London 2012 Olympic Games. The Acer Group employs 8,000 people across the globe. Revenues for 2011 reached US\$15.7 billion. Visit www.acer-group.com for more information.
