

Acer PL6620

ACER PL6620

Brief Introduction
Beta 2.5

The Acer PL6620 3D Laser DLP projector has 6000 ANSI lumens, a contrast ratio of 50000:1, and a WUXGA 1920 x 1200 resolution. It is a laser projector with a light life of 20,000 hours, which would be over 13.7 years if viewed for 4 hours a day. The brightness of 6000 ANSI lumens allows for an image width of 787 cm. The projector can also handle slightly brighter rooms with a smaller image width (we recommend a maximum of 525 cm). Furthermore, the projector can play 1080P and 4K (compressed) as well as 3D without any problems, meaning that all currently available Blu-ray formats can be recognized by the projector.
