

Acer PL7510

ACER PL7510

A brief introduction to the PL7510: The Acer 3D laser DLP projector offers 6000 Ansi lumens, a contrast of 2000000:1 and an HDTV 1920 x 1080 resolution. The manufacturer specifies a laser service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. 787 cm image width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 525 cm here. Furthermore, it is Full HD 1080P and 4K (compressed) as well as 3D compatible, and therefore all currently available Blu-ray formats can be recognized by the projector.
