

Acer SL1320Wn

ACER SL1320Wn

The Acer SL1320Wn 3D laser DLP projector has 4300 Ansi lumens, a contrast of 2000000:1 and a WXGA 1280 x 800 resolution. The manufacturer Acer specifies a service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The horizontal and vertical keystone correction provides leeway when setting up. Thanks to the short throw projection ratio of just 0.52:1, the projector is not distracting in the room. For a 2m wide image, the projector only needs to be 104 cm away from the screen. The HDMI MHL (Mobile High-Definition Link) port enables 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. Playback of 1080P and 4K (compressed) as well as 3D is also no problem for the projector, meaning that all Blu-ray formats currently available can be recognized by the projector. The model built in 2019 is no longer offered by Acer, but is still very popular in our projector database.
