Operating Noise

The standard portable Acer X1130P 3D BrilliantColor DLP projector has 2500 Ansi lumens, a contrast of 3000:1 and an SVGA 800 x 600 resolution. The projector can illuminate a picture width of up to 435 cm thanks to its 2500 Ansi lumens. In room light, however, the image width should ideally be less than 290 cm. The model is also Full HD 1080P compatible. The operating noise of just 30 decibels makes the projection quiet. The projector was launched in 2009 and is no longer sold by the manufacturer.
