

Acer XL2330W

ACER XL2330W

The standard portable XL2330W Laser DLP has 5000 Ansi lumens, a contrast of 50000:1 and a WXGA 1280 x 800 resolution. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is over 13.7 years if enjoyed for four hours a day. 5000 Ansi lumens ensure that a picture width of 718 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 479 cm. The projector has optional screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Playing 1080P is also no problem for the projector, and it even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection. The projector was launched in 2023 and is no longer sold by the manufacturer.
