

Aiptek PocketCinema A100W

A I P T E K P O C K E T C I N E M A A 1 0 0 W

A brief introduction to the Aiptek PocketCinema A100W. The game-portable DLP LED projector has a WVGA 854 x 480 resolution and a contrast of 1000:1. The manufacturer Aiptek specifies a service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. A picture width of up to 111 cm is possible. However, the picture should be smaller in room light. We recommend max. 74 cm. Thanks to the built-in rechargeable battery, the projector does not require a power supply for 2 hours, so it can be set up spontaneously and easily anywhere. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. The model was built by Aiptek in 2014 and is no longer current, but is still very popular in our projector database.
