Product Concept

The brand new PocketCinema V150W is the perfect compact pico projectors to address and present your business ideas to a larger number of audiences. The **DLP technology used for V150W** from Texas Instruments is also made for larger cinema projectors. It **provides the advantages of rich colours and high contrast to the projection image** which is able to **display as big as 305 cm (120'') diagonal and up to 100 lumens of brightness.**

V150W is integrated with image processor **for playing back Full HD movie**, photo slideshow, music, **office, and PDF files directly** from internal memory (2 GB), SD/SDHC/SDXC card, USB flash drive, or USB hard disc. Alternatively, **V150W supports MHL for smartphones**, HDMI for tablets, Blue-ray players, notebooks, iPhone 5/5S/5C, iPad mini and iPad 4, and AV-IN for audio-video devices.

Additionally, **V150W can stream and project videos or photos wirelessly** from your notebook PC, iPhone and iPad -- a truly cable free and elegant solution to coping with all your demand in business and home entertainment.

Key Features

- DLP Technology provides high contrast and saturate colors
- WVGA (854 x 480 Pixel) resolution in 16:9 ratio
- Supports brightness **up to 100 lumens**
- Projects image size **up to 305 cm (120") diagonal**
- **Built-in Office (Word/Excel/PPT) & PDF reader**
- **Support Full HD (1920 x 1080) video output**
- **Smart File management function to make presentation efficiently**
- Multiple input alternatives: **HDMI, VGA, MHL, AV**, USB, SD, SDHC and SDXC up to 128GB card slot, and internal memory
- Embedded rechargeable Li-polymer battery for 2 hours of mobile use and with power bank feature for mobile devices charging
- Modern RGB LED with a working lifetime up to 20.000 hours
- **Streams and projects videos, photos and documents by using special designed App over WiFi**

DLP Technology

V150W uses LED and **DLP technology**, with a **1000:1 excellent contrast** ratio and a native WVGA resolution, capable of displaying up to ANSI 100 lumens brightness and max. 305 cm (**120 inches**). It delivers amazing experience to your business and home entertainment.

Multiple Memory Access

Built in Office Reader

V150W makes your business presentation more easily.

You can copy the document files to the SD card , USB dongle, or internal memory, and go for your business trip. No need to convert software, you can **project the document files (Adobe PDF, MS Word, Excel, PowerPoint) directly**. Enjoy your business trip without notebook.

Photos & Videos Sharing

V150W is capable of playing up to **1080p (1920*1080) resolution of video** and displaying the image of up to 305 cm (120"). You can share pictures and videos with your friends or family anywhere and anytime.

Smart File Management

Just select the files you want to share from the storage, V150W provides the file management tool to put selected files into “My Favorite”. Simply open “My Favorite” in the main menu to share movies, photos or documents.
