

ALLJOY Mini Beamer

ALLJOY MINI BEAMER

Brief Introduction

Beta 2.5

The ALLJOY model Mini Beamer is an LCD LED projector with HDTV 1280 x 720 resolution and a contrast of 9500:1. Thanks to the LEDs, the projector has a light life of up to 50,000 hours, which is over 34.2 years with a daily viewing time of 4 hours. The integrated media player allows files to be played directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The projector can illuminate a picture width of up to 176 cm well thanks to its 300 Ansi lumens. In room lighting, however, the picture width should ideally be less than 117 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P without any problems. At just 25 decibels, the device is one of the quieter projectors.
