

Ampro LCD 4300

AMPRO LCD 4300

The Ampro LCD 4300 LCD projector has 3300 Ansi lumens, a contrast of 400:1 and an XGA 1024 x 768 resolution. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The projector can illuminate a picture width of up to 500 cm well thanks to its 3300 Ansi lumens. In room lighting, however, the picture width should ideally be less than 333 cm. It is no longer available from the manufacturer Ampro.
