

# Anker Nebula Mars II Pro

EAN/UPC:848061024418

## Brief Introduction

Beta 2.5

The Anker Nebula Mars II Pro DLP projector has 500 Ansi lumens, a contrast of 1000:1 and an HDTV 1280 x 720 resolution. The projector will be able to illuminate a 227 cm image width well. However, if room light is available, the image width should ideally not exceed 151 cm. Thanks to the built-in 3350mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. Another extra is that the Bluetooth function allows the projector to be connected to external wireless speakers. The model is also Full HD 1080P compatible. On the market since 2019, the model is no longer offered by the manufacturer Anker, but is still very popular in our projector database.

## Display Type

1 x 0,3" DLP Chip  
HDTV 16/9 Ti Digital Light Processing Chip

## Ansi-Lumen

Projector
