

Anker Nebula Mars Lite

ANKER NEBULA MARS LITE

Brief Introduction

Beta 2.5

The Anker Nebula Mars Lite standard portable LED DLP projector has 500 Ansi lumens, a contrast of 1000:1 and an HDTV 1280 x 720 resolution. The service life of the LEDs is 30000 hours, which is over 20.5 years with a daily viewing time of 4 hours. A picture width of up to 227 cm is possible. However, the picture should be smaller in room light. We recommend max. 151 cm. Thanks to the built-in 19500 mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. The model is also Full HD 1080P compatible. This model is no longer offered by Anker.
