

Appotronics AL-DU635A

APPOTRONICS AL-DU635A

The Appotronics AL-DU635A model is a DLP laser projector with WUXGA 1920 x 1200 resolution and a contrast ratio of 100000:1. The manufacturer specifies a laser life of 25000 hours, which would be over 17.1 years if viewed for 4 hours a day. It includes a lens shift and keystone correction function, which provides flexibility during installation. An image width of up to 868 cm is possible; if the image width is smaller (we recommend a maximum of 579 cm), rooms with residual light are also no problem. The projector supports Airplay and Miracast screen mirroring, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. The model is also Full HD 1080P and 3D compatible. Even projection onto the ceiling is possible thanks to 360° projection.

1 x 0,67" DMD DLP Chip
