

Appotronics AL-GU25KA

APPOTRONICS AL-GU25KA

Brief Introduction

Beta 2.5

Brief introduction to the Appotronics AL-GU25KA. The large-event DLP laser projector has a WUXGA 1920 x 1200 resolution and a contrast ratio of 100000:1. The laser has a service life of 20,000 hours, which would be over 13.7 years if viewed for 4 hours a day. The built-in lens shift and keystone correction function provides freedom in projection adjustment. An image width of up to 1606 cm is possible; if the image width is smaller (we recommend a maximum of 1071 cm), even rooms with residual light are no problem. If the image is still too small, the integrated edge blending software can help to project a large image with additional projectors. It is also Full HD 1080P compatible.

3 x DLP Chip
WUXGA 16/9 Ti Digital Light Processing Chip

Display Type

Ansi-Lumen

25000 / 26000 Center Lumen
