The standard portable Impression A9 SV LCD has 1200 Ansi lumens, a contrast of 350:1 and an SVGA 800 x 600 resolution. The projector can illuminate an image width of up to 302 cm thanks to its 1200 Ansi lumens. In room light, however, the image width should ideally be less than 201 cm. It is no longer offered by the manufacturer ASK. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.
