

Awol Vision LTV-3000 Pro

AWOL VISION LTV-3000 PRO

A brief introduction to the LTV-3000 Pro: The Awol Vision short-throw 3D laser DLP projector offers 3000 Ansi lumens, a contrast of 2000:1 and a UHD (4K2K) 3840 x 2160 resolution. Due to the laser, the projector is specified with 25000 hours of light life, which is over 17.1 years if enjoyed for four hours a day. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. With a projection ratio of just 0.25:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 50 cm away from the screen. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Playback of 1080P and 4K as well as 3D is also no problem for the projector, meaning that all Blu-ray formats currently on offer can be recognized by the projector. With only 27 decibels of operating noise, the model is already very quiet compared to others.

Brief Introduction

Beta 2.5

Display Type

1 x 0,47" DLP DMD Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

3000

1333 Lux (bei 200 cm Screen)

Contrast

2000:1 full on/off

2000:1 full on/off

Black Level
