

Barco HDF W26

BARCO HDF W26

The Barco model HDF W26 is a DLP projector with WUXGA 1920 x 1200 resolution and a contrast of 2600:1. The built-in lens shift function provides freedom when setting up. The projector will be able to illuminate an image width of 1541 cm well. Rooms with residual light can be created by the projector with a smaller image width, max. 1027 cm is recommended here. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. On the market since 2012, the model is no longer offered by the manufacturer Barco.
