

Barco iD H400

BARCO iD H400

The iD H400 DLP projector from Barco has 4000 Ansi-Lumen, a contrast of 2000:1 and a HDTV 1920 x 1080 resolution. The projector also offers a lens shift function that makes image adjustment childs play. Thanks to the brightness of 4000 Ansi lumens, a picture width of 643 cm is possible. The projector can also handle slightly brighter rooms with a smaller picture width (we recommend max. 429 cm). It is also Full HD 1080P compatible. The projector was launched in 2007 and is no longer sold by the manufacturer.

Brief Introduction
