

Benq LW655

BENQ LW655

The standard portable BenQ LW655 laser DLP projector has 4,000 ANSI lumens, a contrast ratio of 3,000,000:1, and a WXGA 1280 x 800 resolution. The manufacturer specifies a laser lifespan of 20,000 hours, which would amount to over 13.7 years based on 4 hours of daily use. Horizontal and vertical keystone correction provides flexibility during setup. An image width of up to 643 cm is possible; if the image width is smaller (we recommend a maximum of 429 cm), even rooms with ambient light are no problem. The projector offers optional AirPlay and Miracast screen mirroring support, which allows for the direct streaming of high-resolution videos and surround sound via Wi-Fi from smartphones, tablets, and PCs running Android, Windows, or iOS. The projector also handles 1080p video signals with ease.

1 x 0,65" DLP Chip
