

Benq MX666

BENQ MX666

With the MX666, manufacturer Benq offers a DLP projector with XGA 1024 x 768 resolution and a contrast of 13000:1. The projector can illuminate an image width of up to 515 cm thanks to its 3500 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 343 cm. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. The projector can also display 1080P and 3D without any problems. On the market since 2014, the model is no longer offered by the manufacturer Benq.
