

# Benq MX707

BENQ MX707

With the MX707, manufacturer Benq offers a standard portable DLP projector with XGA 1024 x 768 resolution and a contrast of 10000:1. The lamp life is specified by the manufacturer as 15000 hours, which is over 20.5 years with a daily viewing time of 2 hours. 3500 Ansi lumens ensure that a picture width of 515 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 343 cm. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. Playing 1080P is also no problem for the projector. The model was built by Benq in 2018 and is no longer current.

1 x 0,55" DLP Chip
