

Benq PX9230

BENQ PX9230

A brief introduction to the Benq PX9230. The large-screen DLP projector has an XGA 1024 x 768 resolution and a contrast of 6000:1. The projector also offers a lens shift function, which makes image adjustment childs play. An image width of up to 675 cm is possible as the projector has 6000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 450 cm. It is also Full HD 1080P and 3D compatible. Even projection onto the ceiling is possible thanks to the 360° projection. The projector was launched in 2018 and is no longer sold by the manufacturer, but is still very popular in our projector database.

Brief Introduction

Beta 2.5

Display Type

1 x 0,7" DLP Chip
XGA 4/3 Ti Digital Light Processing Chip

Ansi-Lumen
