

Benq SU931

BENQ SU931

The standard portable Benq SU931 DLP projector has 6000 Ansi lumens, a contrast of 3000:1 and a WUXGA 1920 x 1200 resolution. The projector also offers a lens shift function that makes image adjustment child's play. As the SU931 is equipped with a microphone jack and 10W speakers, no additional audio system is required for presentations or training sessions. The projector will be able to illuminate the 787 cm picture width well. The projector can manage rooms with residual light with a smaller image width, we recommend a maximum of 525 cm here. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from the smartphone while it is being charged at the same time via the connection. The projector can also play 1080P without any problems. The projector was launched in 2015 and is no longer sold by the manufacturer.

Brief Introduction
