

Benq W5700

BENQ W5700

A brief introduction to the W5700: The Benq high-end home cinema 3D DLP projector offers 1800 Ansi lumens, a contrast of 100000:1 and a UHD (4K2K) 3840 x 2160 resolution. The lamp in the projector is specified with a lamp life of 10000 hours, which converts to over 13.7 years at 2 hours per day. Includes a lens shift function, which provides freedom during installation. An image width of up to 431 cm is possible. However, the image should be smaller in room light. We recommend max. 287 cm. Furthermore, it is Full HD 1080P and 4K as well as 3D compatible, and thus all currently offered Blu-ray formats can be recognized by the projector. It was launched in 2019 and is no longer offered by the manufacturer Benq, but is still very popular in our projector database.

Brief Introduction

Beta 2.5

Display Type

1 x 0,47" DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip
