The Bettdow AC1066 LED LCD projector has 250 ANSI lumens, a contrast ratio of 1500:1, and an HDTV resolution of 1920 x 1080. It is an LED projector with a lamp life of 30,000 hours, which would equate to over 20.5 years if used for 4 hours a day. This projector has a throw ratio of just 0.8:1. To project a 2-meter-wide image, the projector needs to be positioned just 160 cm away from the screen. The model supports AirPlay and Miracast screen mirroring, making it possible to stream high-resolution videos with surround sound directly over Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another notable feature is that the projector's Bluetooth functionality allows it to connect to external wireless speakers. Even 1080p and 4K (compressed) are no problem for the projector.
