The BIGASUO 110B LED LCD projector has 540 ANSI lumens, a contrast ratio of 10000:1 and an HDTV 1920 x 1080 resolution. It is an LED projector with a 55,000-hour light lifespan, which would be the equivalent of 37.7 years at 4 hours a day. Since BIGASUO indicates the brightness of the projector in lumens, we have calculated an approx. Ansi-Lumen value in this case. The projector will be able to illuminate a screen width of 236 cm well. If there is room light, however, the image width should not exceed 157 cm. The built-in 3000mAh / 1.5h battery eliminates the need for a power supply, making the projector quick and flexible to set up. The projector optionally has Airplay, Miracast Screen Mirroring support, which makes it possible to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. The model is also Full HD 1080P compatible.
