

Brookstone HDMI Pocket Projector 801143p

Brief Introduction

Beta 2.5

Brief presentation of the Brookstone HDMI Pocket Projector 801143p. The DLP LED projector has a WVGA 854 x 480 resolution and 85 Ansi lumens. Due to the LEDs, the projector is specified with 20000 hours of light life, which converts to over 13.7 years at 4 hours per day. A picture width of up to 94 cm is possible. However, the picture should be smaller in room light. We recommend a maximum of 63 cm. Playing 1080P is also no problem for the projector. The model built in 2012 is no longer offered by Brookstone, but is still a popular projector in our database.
