

Byintek Moon K18

BYINTEK MOON K18

A brief introduction to the Byintek Moon K18. The standard portable LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast of 10000:1. Due to the LEDs, the projector is specified with 30000 hours of light life, which is over 20.5 years with a daily viewing time of 4 hours. The integrated media player can play files directly. The horizontal and vertical keystone correction provides leeway when setting up. 300 Ansi lumens ensure that a picture width of 176 cm is also possible. However, if room light is available, the picture should be a maximum of 117 cm wide. The projector has screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. It is also Full HD 1080P and 4K (compressed) compatible.
