

Canon LV 7297M

CANON LV 7297M

Brief Introduction

Beta 2.5

A brief introduction to the LV 7297M: The Canon LCD projector offers 2600 Ansi lumens, a contrast of 500:1 and an XGA 1024 x 768 resolution. The lamp life is specified by the manufacturer as 5500 hours, which is over 7.5 years with a daily viewing time of 2 hours. 2600 Ansi lumens ensure that a picture width of 444 cm is also possible. However, if room light is available, the picture should be max. 296 cm wide. Playing 1080P is also no problem for the projector. It was launched in 2012 and is no longer offered by the manufacturer Canon.
