

Canon LV WX300USTi

CANON LV WX300USTi

A brief introduction to the LV WX300USTi: The Canon whiteboard DLP projector offers 3000 Ansi lumens, a contrast of 2300:1 and a WXGA 1280 x 800 resolution. The lamp life is specified by the manufacturer as 5000 hours, which is over 6.8 years with a daily viewing time of 2 hours. As the LV WX300USTi is equipped with a microphone jack plug and 10W loudspeakers, no additional audio system is required for presentations or training courses. A screen width of up to 556 cm is possible. However, the image should be smaller in room lighting. We recommend max. 371 cm. The projector also offers a whiteboard function that makes training and presentation rooms interactive. Even 1080P playback is no problem for the projector. It was launched in 2015 and is no longer offered by the manufacturer Canon, but is still a popular projector in our database.

Brief Introduction Beta 2.5
