

Caydo M1C

CAYDO M1C

Manufacturer Caydo offers the M1C, a portable DLP LED projector with HDTV 1280 x 720 resolution. The LEDs have a lifespan of 30,000 hours, which, at 4 hours of viewing per day, would be over 20.5 years. The brightness of 110 ANSI lumens allows for a screen width of 107 cm. In room light, the image should be a maximum of 71 cm wide. The built-in 8000mAh / 2.5h battery means that no power supply is required, allowing the projector to be set up quickly and flexibly. Video signals of 1080P are also no problem for the projector.

1 x DLP Chip
