

# Christie DHD775 E

## Brief Introduction

Beta 2.5

The DHD775 E DLP has 6400 Ansi-Lumen, a contrast of 5000:1 and a HDTV 1920 x 1080 resolution. The built-in lens shift function provides freedom when setting up. 6400 Ansi lumens ensure that a picture width of 813 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 542 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Furthermore, it is Full HD 1080P compatible and even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection. This model is no longer offered by Christie.
